TaxPro Bulk PDF Signer Chartered Information Systems Pvt. Ltd.

How to validate a signature on a digitally signed document

You will be receiving PDF licences and letters through the MMO Licensing System which will be digitally signed. The **first one** you receive will probably have the following image where you would normally expect to see a signature.

In order to validate the signature, you should **press the right hand mouse button whilst you are hovering over the image** and select the **'Validate signature**' option.

<u>V</u> alidate Signature			
View Signed Ve <u>r</u> sion			
Show Signature Properties			

Click on the 'Signature Properties' button.

Signature Validation Status				
L.	Signature validity is UNKNOWN. - The Document has not been modified since this signature was applied. - The signer's identity is unknown because it has not been included in your list of trusted identities and none of its parent certificates are trusted identities.			
	Legal Notice Signature Properties
